VEDDY AND MANAGEMENT

, Hyderabad)

and Under Section 2(f) & 12(B) of the UGC act, 1956

ENGINEERING

PROJECT TITLES

Court case management system

E –Marketplace (Like Amazon, flipkart) wherein tribals can promote, market and sell tribal produce such as handicrafts, arts, paintings, minor forest products etc. on line with provision of delivery and e-payment and promotional discounts.

National crime statistics generation as per crime in india .(sk218)

Develop rating system for worker satisfaction(SG65)

WARNING SYSTEM FOR DRIVERS

security and surveillance

Content management system for College Website(ds166)

Farmer stock trading application(IC465)

QR Code Based Distribution System of Rich Nutrient food supply to the Tribal Community for better health and growth. - (IC475)

Developing Virtual police station to receive FIR with OCR Based Digital signature.

Multilinguistic Optical Character Recognition - KB143

Way out of man-animal conflict, especially for protection of crops from wild animals - MK99

National webportal is used for designing job oriented courses with help of hr data and desirable skills(MK95)

Realtime Vehicle Detection System - ic463

ULTRA COMPACT PERSONALIZED FLYING MACHINE

Extraction of Crop Cycle Parameters from Multi-Temporal Data(NM372)

Predicting the trends of quality oriented jobs(MK105)

vehicle maintainance index

Covid-19 epass portal-IC466

Disease management system (student innovation)

Use of AI based chatbots for providing health related information-SS43

Automated mapping of tree/farms in satellite image(NM371)
Covid-19 Patient monitoring system(IC471)
File Tracking System in the department(SG298)
Health facilities/schemes for people who comes to cities
Vehicle Traffic Violation Analysis(AN315)
Face Mask Detection and Alert Message System (IC463)
Fake account detection(RK303)
Device To Check Harmful Chemicals In Vegetables And Fruits
Detection of malicious content and web links related to cyber frauds(RK305)
Lab report digitization by OCR

EDDY AND MANAGEMENT

(Hyderabad)

Under Section 2(f) & 12(B) of the UGC act, 1956

ENGINEERING
PROJECT TITLES
Social distancing detection
VOICE PRESCRIPTION -AP63
Artificial Intelligence based solution which may calculate the probability of future market trend on the basis of past years data and suggest a suitable pricing model for sale of cotton
Tourism simplified through voice(AN317)
Management Information System (MIS) Software for IMOs - AS33
Design and development of Automatic shopping Trolley
POTHOLE CHALLENGE
Security and Surveillance for Car parking and vehicle monitoring -CB31
cybercrime prevention
Traffic control system
Electric Vehicle (EV) Ecosystem (SS443)
Better and faster emergency care during accidents and vehicle impact
Crop Guidance and Farmers Friend
Portal for Farmers to sell the produce at a better rate
Face, expression and gesture recognition and compilation in database software-MS331
Face to BMI : Estimating Body Mass Index Through Face Recognition in
Hazardous area monitoring system in industrial plants

hazardous area monitoring system in industrial plants
Designing and development of comprehensive Supply Chain Automation in PDS - BK266
Disruptive innovation for women empowerment-AS119
smart cities
Travel and tourism IC466
Food processing
Real Time Water Quality Monitoring and Contamination event Detection
Sentiment Analysis of Code-Mixed Languages-MU455
Criminal navigation using mobile
Early Prediction of Sepsis from Clinical Data - UP49
App for online opd appointment and Hospital System- DA192
Develop a Students Grievance Support System.(KB220)
Virtual Tourist Guide
Smart Intelligent Traffic Accident Monitoring SystemMK104
Indoor Navigation App-CK159
cyber crime tracking

EDDY AND MANAGEMENT

Hyderabad)

Under Section 2(f) & 12(B) of the UGC act, 1956

ENGINEERING
PROJECT TITLES
Solar Powered Smart Irrigation System.
Elderly care system
CORPORATIONS
smart autonomous remote monitoring system for agriculture
Tracking of calls from a basic phone using the location based information and google services-DB162
A software / Mobile App should be developed to collect the online information from Youth in the field of Skill Training.
Software based unified collaboration platform (PA300)
Integrated Automatic Flood Warning And Alert System Using IOT(PK367)
verification code) system, replacing Digital Signature Certificate by Aadhaar based OTP.
laser based vibration sensor operator through mobile
Intelligent attendance solution for MGNREGA workers
Inventory management system using QR Codes -AK12
Anti Theft Systems for 2 Wheelers(UK151)
Anti Theft Systems for 2 Wheelers(UK151)
water quality measuring device-DR136
cost effective mechanism to treat waste water in villages-VS19
AI Based reservation system
MOBILE APP FOR CITIZENS AND POLICE FOR MANAGEMENT OF CRIME RECORDS - SK215
cost effective mechanism to treat waste water in villages-VS19
ONLINE STET (STATE TEACHER ELIGIBILITY TEST)
Mobile Application That Keeps Medical Report/History Of Students
EMOTION DETECTION OF CONTEXTUAL TEXT USING DEEP LEARNING
Converting hand written documents as scanned images to legible text document using Python extracting important and critical information into database - MS338
Firefighting through high resistance robots

Strengthening through high resistance robots
Mobile Application That Keeps Medical Report/History Of Students
Development of tribal youth talen-DN262
Smart traffic monitoring and controlling(AG344)
elderly care system
efficient chatbot designing
platform to integrate startup across country and a platform to connect them to possible accelerator in the area of field.
covid19 X-ray based detection
suspicious activity detection CCTV footage
Detection of fake profiles
