

MARRI LAXMAN REDDY INSTITUTE OF TECHNOLOGY AND MANAGEMENT

(AN AUTONOMOUS INSTITUTION)

(Approved by AICTE, New Delhi & Affiliated to JNTUH, Hyderabad)

Accredited by NAAC with 'A' Grade & Recognized Under Section 2(f) & 12(B) of the UGC act, 1956

Orientation Day- Report

Orientation Day	:	Welcoming first-year B.Tech students and their parents
Theme of the Orientation Day	:	It introduces the institution's vision, academic policies, facilities, career opportunities.
Organizing Department	:	Freshman Engineering
Date of conduct	:	18/08/2026
Venue	:	Auditorium
Time Duration	:	3–4 hours for formal program + refreshments & interactions.
Orientation Day Convener	:	Dr. P.Sridhar
Orientation Day Co-convener	:	Dr.K. Ashok
Orientation Day Coordinators	:	All mentors
Administrative Staff	:	All freshman engineering faculty members
Target Audience / Participants	:	Newly joined students, faculty & parents
Number of Participants	:	1200

Objectives of the Orientation

Day Program

- Familiarize students and parents with campus recruitment opportunities, teaching-learning practices, and R25 academic regulations.
- Emphasize the importance of discipline, attendance, goal-setting, and holistic development.
- Highlight the institution's commitment to 360-degree education, placements, and industry readiness (including Campus Readiness Training - CRT).

Guidelines for the Orientation Day Program

Orientation Day is the flagship inaugural event of the Mandatory Induction Programme for first-year B.Tech students, as per AICTE/UGC/JNTUH and MLRITM's academic regulations (e.g., MLRS-BT25). Purpose:

- Help new students adjust to the college environment.
- Inculcate institutional ethics, culture, values, and discipline.
- Familiarize students and parents with academic policies, facilities, placements, and expectations.
- Build bonds with faculty, mentors, and peers.
- Motivate students for academic excellence and holistic development

Target Participants

- All first-year B.Tech students (all branches) and their parents/guardians.
- Faculty, HoDs, Deans, Principal, Director, and Management.
- Student volunteers (preferably senior students).

Outcomes of the Orientation Day Program

The Orientation Day at Marri Laxman Reddy Institute of Technology and Management (MLRITM) is a key component of the mandatory one-week Induction Programme. It successfully achieves its objectives of welcoming the new batch (e.g., Class of 2025/2026), setting clear expectations, and fostering a smooth transition into college life. The program delivers both immediate and long-term benefits for students, parents, and the institution.

Enhanced Awareness and Clarity:

- Students and parents gained a clear understanding of the institute's vision, academic regulations (e.g., R25 curriculum), attendance requirements (minimum 75%), evaluation processes (CIE + SEE), and promotion rules.
-

- Detailed insights were provided on teaching-learning practices, discipline standards, and holistic development approaches.

Motivation and Confidence Building:

- Inspirational addresses from the Chairman, Secretary, Director (e.g., Anu Shreya Reddy), Principal and other dignitaries motivated students to focus on goals, hard work, and making parents proud.
- Students left with renewed enthusiasm and a sense of belonging to the institution.

Career and Placement Orientation:

- Clear overview of placement opportunities, Campus Readiness Training (CRT), skill development programs, and industry readiness initiatives.
- Students understood pathways to top companies and the importance of early preparation.

Familiarization with Campus Resources:

- Introduction to infrastructure, laboratories, libraries, centers of excellence, clubs, sports facilities, and extracurricular activities.
- Department stalls and campus tours helped students explore their specific branches and available opportunities.

Parent Reassurance:

- Parents received direct interaction with management and faculty, gaining confidence in the institute's safety measures, support systems, anti-ragging policies, and commitment to student success.

Improved Student Engagement and Retention:

- Better alignment with institutional values leads to higher attendance, reduced dropout rates, and stronger participation in academics and co-curricular activities.

Holistic Development:

- Foundation laid for Universal Human Values (UHV), personality development, innovation, and leadership skills through the full induction week activities.

Academic and Professional Success:

- Early awareness of outcome-based education (OBE), program outcomes (POs), and career pathways contributes to better academic performance and higher placement rates in subsequent years.

Need and Relevance of Orientation Day

The transition from school to engineering college brings significant challenges for students and parents:

- **Academic Shift:** Move from rote learning to outcome-based education, higher academic rigor, continuous internal evaluation (CIE), semester-end exams, and credit systems.
- **Environmental Change:** New campus, independent living, diverse peer group, and exposure to advanced technology and innovation.
- **Uncertainty & Anxiety:** Concerns about attendance rules (minimum 75%), discipline, placements, ragging, safety, and career prospects.
- **Holistic Development Gap:** Need for awareness of Universal Human Values (UHV), soft skills, extracurricular, and mental well-being alongside technical education.
- **Parental Concerns:** Reassurance regarding safety, quality of education, infrastructure, and return on investment.

Without proper orientation, students risk confusion, lower motivation, poor attendance, and higher dropout rates in the initial months.

Impact of the Orientation Day Program

Conclusion

The Orientation Day at MLRITM is a well-organized, inspiring event that successfully integrates formal addresses, interactive sessions, and motivational guidance. It effectively welcomes the new batch and aligns them with the institute's values of excellence, discipline, and innovation. For the most current or department-specific details (e.g., 2026 events), refer to the official website (mlritm.ac.in or mlritm.ac.in) or social media handles of the MLR Group institutions.

Future Scope & Recommendations

The Orientation Day and the associated Induction Programme at MLRITM have strong potential to evolve into a more impactful, technology-driven, and student-centric experience. Key future opportunities include:

- **Integration of Emerging Technologies:** Incorporate sessions on AI, Machine Learning, Block chain, Robotics, and Industry 4.0/5.0 tools to align with future-ready skills.
- **Hybrid & Extended Format:** Blend physical events with virtual pre-orientation modules (e.g., online webinars, virtual campus tours) starting from admission confirmation.
- **Personalized & Data-Driven Approach:** Use student data (branch, background, interests) for customized sessions and mentor matching.
- **Enhanced Industry & Alumni Connect:** Greater involvement of industry experts, successful alumni, and startup founders for real-world insights.
- **Sustainability & Global Perspectives:** Add modules on sustainable engineering, climate change, and global opportunities (study abroad, international certifications).
- **Entrepreneurship & Innovation Focus:** Strengthen startup accelerator orientation and innovation challenges as part of the induction week.
- **Mental Health & Well-being Integration:** Expand Universal Human Values (UHV) with dedicated sessions on stress management, digital detox, and resilience.
- **Longitudinal Engagement:** Transform Orientation into the start of a year-long onboarding journey with follow-up milestones.

These enhancements position MLRITM as a forward-thinking autonomous institute in line with evolving AICTE guidelines and national education policies.

Challenges Faced & Mitigation

Challenge	Mitigation
Large Crowd & Logistics Management	Advance online registration via Google Form/Institute portal. - Multiple registrations counters and timed entry slots. - Adequate seating with overflow arrangements and live streaming in adjacent halls.
Time Overruns & Long Speeches	Strict time allocation with a dedicated timekeeper. - Pre-briefing of speakers. - Limit formal speeches to 90–120 minutes; intersperse with short cultural performances or videos.

Challenge	Mitigation
Low Student Engagement & Attention	Include interactive elements: polls, Q&A, group activities, and short ice-breakers. - Use engaging visuals, short videos, and real alumni success stories. - Incorporate hands-on department stalls and mini demos.
Information Overload	Provide concise handouts, brochures, and a dedicated Orientation App/Portal for reference. - Distribute key information across the full one-week Induction Programme instead of one day.
Parental Queries & Anxiety	Separate parent orientation booklet and follow-up WhatsApp groups. - Clear communication on anti-ragging policy and grievance redressed.
Inclusivity & Diversity	Multilingual summaries (English + Telugu). - Accessibility arrangements for differently-abled students. - Sensitivity training for volunteers.
