Prerequisite: Basic concepts of entrepreneurial finance								

COURSE OVERVIEW:

This course provides a comprehensive understanding of entrepreneurial finance across the venture lifecycle from idea generation and business model development to growth and exit. It covers venture screening, financial planning, funding sources (seed, angel, venture capital), and financial statement analysis. Students learn valuation techniques such as Discounted Cash Flow and venture capital methods. The course also explains cost of capital, risk assessment, and financing alternatives including leasing, factoring, and government schemes. Emphasis is placed on practical financial decision-making, performance evaluation, and managing funding strategies to ensure sustainable growth and successful venture harvest.

COURSE OBJECTIVES:

- To highlight the importance of Entrepreneurial Finance.
- To elucidate how companies Organize and Operate the Venture.
- To impart knowledge of various aspects in financial planning.
- To provide understanding of various aspects in venture valuation.
- To discuss the aspects of financing the growing ventures.

COURSE OUTCOMES: After completion of the course, students should be able to

1. Understand core concepts of entrepreneurial finance, venture life cycle and business idea screening—covering pricing, profitability strategies
2. Assess financing options—seed funding, bootstrapping, angel investing and financial statements for supporting operational decisions in new ventures
3. Analyze valuation of early-stage ventures using discounted cash flow, earnings multiplier and venture capital methods.
4. Apply financial planning tools across the venture life cycle for short-term and long-term decision-making.

5. Determine funding sources—venture capital, banking, government programs, leasing and align financing strategy with the venture’s growth stage.
